**Concerning The Threat to Social Security by Out-of-Control Government Spending and the \$32 TRILLION National Debt** 

ABOUT THIS SURVEY	60 PLUS will deliver a report on the results of this survey to:
	<ul> <li>Members of the House and Senate.</li> <li>President Joe Biden and his top advisors.</li> <li>The news media.</li> </ul>
	ease mark the answers that come closest to your view. Leave questions blank you efer not to answer. Only the overall tabulated results will be distributed.

THREAT #1 TO SOCIAL SECURITY: Under current law, Social Security (FICA) taxes are treated just like any other tax revenue. Social Security tax collections just go into the "GENERAL FUND." Congress can use Social Security tax revenue however they please – to spend however they want, such as to hand out to special interests. Right now, the national debt stands at \$32 TRILLION. This means every American now owes \$610,000 on the national debt. The interest payments alone on the national debt this year will be \$550 BILLION. The Congressional Budget Office estimates that just the interest payments on the national debt will be \$1.2 TRILLION per year by the end of this decade. Overall tax collections only cover about half of federal spending. The biggest pot of money for politicians in Washington to grab for their out-of-control spending is Social Security (FICA) tax revenue.

QUESTION: How concerned are you about how out-of-control spending by politicians in Washington threatens your Social Security income?

□ Very Concerned □ Concerned □ Not Concerned □ No Opinion

THREAT #2 TO SOCIAL SECURITY: Another way politicians in Washington steal your Social Security and retirement income is by printing trillions of new dollars each year to devalue your Social Security and retirement income -- that is, by cutting the buying power of your Social Security income. It's also well-established by economists that annual cost-of-living adjustments (COLAs) are based on a fraudulent CPI inflation index ... and that the true annual inflation rate is about 5% higher than the official inflation rate the government reports. So the value and buying power of your Social Security and retirement income is eroded by the U.S. government printing trillions of new dollars each year, which creates a hidden tax called inflation.

QUESTION: How concerned are you that the U.S. government prints trillions of new dollars each year as a way to pay for it's manic deficit spending, which then creates inflation (now at the highest levels in 43 years) and erodes the value of your Social Security and retirement income?

**PROGRAM SUMMARY:** 60 PLUS is delivering the facts to millions of seniors on how politicians ARE and will CONTINUE to steal the tax revenue that funds Social Security for their BIG GOVERNMENT spending schemes. We do this by mailing INFO PACKETS like this to millions of seniors. We also create and distribute videos via email, text message, on YouTube, Facebook, and across Social Media platforms. Many of our videos and social media campaigns have gone viral and reach millions of seniors with the facts on how your Social Security money is being diverted (stolen) to pay for other federal spending that has nothing to do with Social Security. Hundreds of thousands of seniors have joined with 60 PLUS once they learn from us why immediate passage of the "Social Security Guarantee Act" is so urgently needed. But we need donations to keep this campaign growing . . . and to continue burying Congress and the Biden White House with a relentless and continuous avalanche of these signed petitions from alarmed seniors until the "Social Security Guarantee Act" is passed into law.

**QUESTION:** Will you include a donation with your signed PETITION and survey to help fund this campaign to generate overwhelming voter pressure on Congress and the Biden White House to immediately pass the "Social Security Guarantee Act" into law?
