Today's government schools are teaching children as young as kindergarten that they can change their gender. They are also teaching America's children that America was built on racism, is systemically racist, and therefore evil. The schools are brainwashing America's children to become warriors for socialism and the anti-America Left. **60 Plus** is mobilizing grandparents across America to run for school board and attend school board meetings to take a stand against the political brainwashing of children by the schools.
